

Unique Identification Authority of India

Government of India

# Aadhaar: Enabling Digital Financial Services

*“To empower residents of India with a unique identity and a digital platform to authenticate anytime, anywhere”*

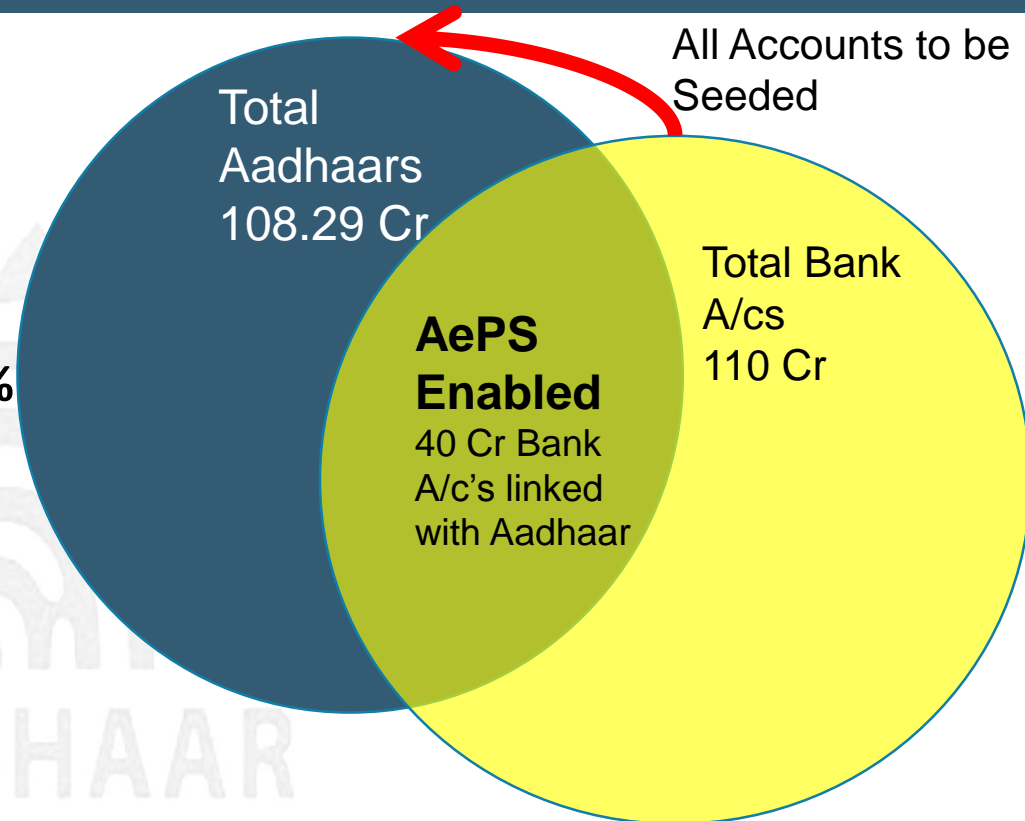

# Status Update

## • Aadhaar Coverage

- Issued – **108.29 Cr** as on date
- Adult Population Covered – **99.3%**
- Total Coverage – **84.4%**

## • Other Key Statistics

- Total Aadhaars enabled on **AePS** – over **40 Crore**...can make **Digital Financial Transactions using Aadhaar** as on date
- Total Aadhaars linked with Bank A/C's (and on Aadhaar Mapper ) – **35.79 Crore**...can receive **DBT Payments** as on date

# Advantage of Aadhaar in Digital Payments

- **Token-less Authentication for Payments:**

NO NEED to carry a CARD, or remember the PIN

- **Wide Coverage & Scalable:**

One out of every two Adults in the country today can perform AePS. Potentially every adult can perform AePS , provided the Bank Account is linked with Aadhaar.

- **Interoperable**

NOT CLOSED LOOP;

- **Agnostic to ‘form-factor’:**

Allows us to deploy lakhs of Merchants rapidly by upgrading the existing devices, such as Mobile Phones, Tablets, PC, Laptop, PoS Device etc.

# Key Enablers

- Seeding of ALL Bank Accounts (one of the key directives from the PMO);
- Mobile based & browser based Application enabling AePS;
- Procurement of STQC Certified Fingerprint Scanners & Iris Scanners
- Rapid deployment of AePS enabled Merchants
- Relook at the fee structure & incentives
